

## Report on British Virgin Islands

British Virgin Islands is ranked at 11th position on the 2011 Financial Secrecy Index. This ranking is based on a combination of its secrecy score and a scale weighting based on its share of the global market for offshore financial services.

British Virgin Islands has been assessed with 81 secrecy points out of a potential 100, which places it towards the top end of the secrecy scale (see chart 1 below).

British Virgin Islands accounts for under 1 per cent of the global market for offshore financial services, making it a tiny player compared with other secrecy jurisdictions (see chart 2 below).

### Next steps for British Virgin Islands

British Virgin Islands' 81 per cent secrecy score shows that it must still make major progress in offering satisfactory financial transparency<sup>1</sup>. If it wishes to play a full part in the modern financial community and to impede and deter illicit financial flows, including flows originating from tax evasion, aggressive tax avoidance practices, corrupt practices and criminal activities, it should take action on the points noted where it falls short of acceptable international standards. See below for details of the British Virgin Islands' shortcomings on transparency. See this link <http://www.secrecyjurisdictions.com/kfsi> for an overview of how each of these shortcomings can be fixed.

## Secrecy Scores

The secrecy score of 81 per cent for the British Virgin Islands has been computed by assessing the jurisdiction's performance on the 15 Key Financial Secrecy Indicators, listed below.

The numbers on the horizontal axis of the bar chart on the left refer to the Key Financial Secrecy Indicators (KFSI). The presence of a **blue** bar indicates a positive answer, as does **blue** text in the KFSI list below. The presence of a **red** bar indicates a negative answer as does **red** text in the KFSI list. Where the jurisdiction's performance partly, but not fully complies with a Key Financial Secrecy Indicator, the text is coloured **violet** in the list below (combination of red and blue).

This paper draws on key data collected on the British Virgin Islands. Our data sources include regulatory reports, legislation, regulation and news available at 31.12.2010<sup>2</sup>. The full data set is available [here](#)<sup>3</sup>. Our assessment is based on the 15 Key Financial Secrecy Indicators (KFSIs, below), reflecting the legal and financial arrangements of the British Virgin Islands. Details of these indicators are noted in the following table and all background data can be found on the [Mapping Financial Secrecy web site](#)<sup>4</sup>. This data is the basis on which the [Financial Secrecy Index](#)<sup>5</sup> is compiled.

### The Key Financial Secrecy Indicators and the performance of the British Virgin Islands are:

TRANSPARENCY OF BENEFICIAL OWNERSHIP – <b>British Virgin Islands</b>	
1.	Banking secrecy: Does the jurisdiction have banking secrecy? <b>British Virgin Islands does not adequately curtail banking secrecy</b>
2.	Trust and Foundations Register: Is there a public register of Trusts and Foundations? <b>British Virgin Islands does not put details of trusts on public record</b>
